INDEX TO VOLUME 45

Abernethy, J. L., Savoy, C. M. S., and Williams, O. B. Abstract, 200

Acetobacter suboxydans, Growth requirements of. Growth factors for bacteria. XIV, 183

—, *In vitro* sulfonamide studies with, an organism requiring p-aminobenzoic acid as a growth essential. Abstract, 24

Acetone, Utilization of sweet potatoes for production of n-butyl alcohol and. Abstract, 38

Acid-fastness, The destruction of, of the tubercle bacillus by an autolytic process, 163

Acid production from carbohydrates by the genus *Bacillus* as influenced by the lack of "sparing action" on peptone. Abstract, 15

Ackerman, Helen, Stokinger, Herbert E., and Carpenter, Charles M. Abstract, 31

Acridines and other compounds, Comparison of *in vitro* effects of, upon various bacteria. Abstract, 521

Actinomycetes, Cultivation of, under submerged conditions, with special reference to the formation of streptothricin. Abstract, 30

Adams, E. B., and Woolpert, O. C. Abstract, 83

Adams, S. L., and Novak, A. F. Abstract, 95

Adaptation of bacterial species to high temperatures, The mechanism of. Abstract, 22

Adler, Jacob, Kahn, Reuben L., and McDermott, Elizabeth B. Abstract, 73

Aerobacter aerogenes, The increased resistance of, to sodium pentachlorophenate, 573

Aerobic mesophilic spores, The accelerating effect of sublethal heat upon the germination of. Abstract, 47. Abstract. (No abstract), 306

Agar media, A comparison of four. Factors which influence the growth of heat-treated bacteria. I, 395

—, The use of a substance extracted from Irish moss as a substitute for, for bacteriological purposes. Abstract, 20

Agglutination of erythrocytes, leucocytes, thrombocytes, spermatozoa, spores of molds, and pollen by strains of *E. coli*, 545

— test, The, as an aid in the diagnosis of meningococcic infection. Abstract, 68

Agglutinin titer, Stimulation of, by intradermal injection of agglutinogen from *Hemophilus pertussis* in phase I. Abstract, 72

Agglutinogen, Stimulation of agglutinin titer by intradermal injection of, from *Hemophilus pertussis* in phase I. Abstract, 72

Air-borne infection. Abstract, 60

Albert, Dorothy, Irons, J. V., and Bohls, S. W. Abstract, 79, 200

Alcoholic fermentation of grains, Mold amylases as conversion agents in the. Abstract, 577

Alfalfa silage, The fermentation of, preserved by wilting and control of moisture. Abstract, 40

Allergic and antigenic activity of sonic filtrates of *Brucella abortus*, Studies on the. Abstract, 193

Allison, L. E., Roberts, James L., Prickett, Paul S., and Riddle, K. B. Abstract, 40

Alture-Werber, E. Abstract, 195

Aluminum hydroxide sedimentation, sand filtration and chlorination, The effect of, on the virus of poliomyelitis. Abstract, 77

Anaerobes and oxidation-reduction potentials, Cultivation of, 309

Anderson, Thomas F. Abstract, 303

—, Luria, S. E., and Delbrück, M. Abstract. (No abstract), 203

— and Morton, Harry E., 143

— Mudd, Stuart, and Heinmets, F. Abstract, 55

Animal board, An, for rabbits, monkeys, and other laboratory animals, 167

— sera, Effect of different salt concentrations on the Kahn reaction with. Abstract, 73

Antibacterial sera, The mouse protective

test as a uniform method of assay for. Abstract, 70
Antibacterial serum, Results of treating 750 cases of pertussis with pertussis antitoxin and pertussis. Abstract, 72
Antibacteriostatic agent, Sodium thioglycollate as an. Its use in sterility testing. Abstract, 44
Antibiotic substances, Effect of, upon rhizobia. Abstract, 29
—, Nature and mode of action of. Abstract, 64
—, Two antagonistic fungi, *Aspergillus fumigatus* and *Aspergillus clavatus*, and their, 233
Anti-biotin activity of methionine. Abstract, 33
Antibodies in blood, The simultaneous presence of passively transferred, and of viable pneumococci in cerebrospinal fluid in patients with meningitis. Abstract, 70
Antigen-antibody system, A simplified serum-dilution procedure for the quantitative titration of precipitins in a pure. Abstract, 71
Antigenic analysis of human and swine strains of influenza virus. Abstract, 83
— relationships of *Escherichia coli* isolated from one individual, 121
Antigens, Problems encountered in cultivating *Endamoeba histolytica* with a single species of bacteria for the production of. Abstract. (No abstract), 307
Anti-infectious agents, The evaluation of antiseptics and other. Abstract, 41
Antiseptic action, The relation of structure to, of certain chlorinated 4-phenylphenols. Abstract, 200
Antiseptics and other anti-infectious agents, The evaluation of. Abstract, 41
Antitoxin, Results of treating 750 cases of pertussis with pertussis, and pertussis antibacterial serum. Abstract, 72
Appelbaum, Emanuel, and Falk, Carolyn R. Abstract, 68
Appling, John W., and Shema, B. F., 573
Aspergillic acid, a product of a strain of *Aspergillus flavus*. Studies on antibacterial products formed by molds. I, 433
—, Biological properties of crude and purified. Studies on *Aspergillus flavus*. I, 461
Aspergillus flavus, Aspergillic acid, a product of a strain of. Studies on antibacterial products formed by molds. I, 433
—, Studies on. I. Biological properties of crude and purified aspergillic acid, 461
Aspergillus fumigatus, A case of lung infection with. Abstract, 97
—, and *Aspergillus clavatus*, Two antagonistic fungi, and their antibiotic substances, 233
Assay agent, Use of *Leuconostoc mesenteroides* as an, for several members of the vitamin B group. Abstract, 35
Autolytic process, The destruction of acid-fastness of the tubercle bacillus by an, 163
Autotrophism, Induced, in yeast, 329
Ayres, Gilbert B., and Tobie, Walter C. Abstract, 18
Azo compounds of sulfanilamide, sulfapyridine and sulfathiazole, Bacterial studies on. Abstract, 23
Azo sulfonamides, Studies on. Abstract, 521
Azotobacter, Carbon monoxide inhibition of, in microrespiration experiments, 219
—, The relation of hydrogenase and nitrogenase in the fixation of nitrogen by. Abstract, 17
—, Utilization of combined nitrogen by. Abstract, 17

Bacillus, Acid production from carbohydrates by the genus, as influenced by the lack of "sparing action" on peptone. Abstract, 15
— *brevis*, Formation of tyrothricin in submerged cultures of. Abstract, 29
— *cereus*, The influence of the sodium ion on the viability of washed cells of, 373
— *mesentericus* group, Physiological differentiation of members of the. Abstract, 18
Bacterial counts, A study of the increase of, of frozen whole eggs, using three methods of thawing. Abstract, 49
— counts in spray-dried whole egg powder, Effect of storage temperature on. Abstract, 48
— death rates and decimal reduction time. Abstract, 19
—, dissociation, A new approach to the problem of. Abstract, 21

Bacterial flora, Normal, of cutting oil emulsions. Abstract, 37
— growth *in vitro*, Experiments with collodion sacs on inhibition of, 147
— nucleus, The internal structure of certain bacteria as revealed by the electron microscope—a contribution to the study of the, 349
— utilization of low concentrations of organic matter, 555
Bactericidal agents, The effect of, on gram-negative cocci, 137
Bacteriological changes during the dehydration of eggs. Abstract, 48
— Technic, Report of the Committee on: Progress during 1942, 12
Bacteriologists, Training of public health and medical. Abstract, 84
Bacteriophage as a possible factor in reducing yields of canning peas. Abstract, 39
Bacteriophage, Electron microscope studies of. Abstract, 73. Abstract. (No abstract), 203
—, Electron microscopic study of. Abstract, 303
—, Immunological reactions of. Abstract, 74
— in soils, Semi-quantitative determinations of, 407
—, Industrial importance of. Abstract, 75
— of *Rhizobium leguminosarum*, A medium adapted to the, 406
—, The Danysz phenomenon with. Abstract, 76
—, The reproduction of. Abstract, 74
Bacteriophages, Stepwise liberation of poorly sorbed, 211
—, Therapeutic and prophylactic uses of. Abstract, 76
Bacteriophagy in the developing chick embryo, 477
Bacterium tabacum, Colonies of, on roots of wheat and several grasses. Abstract, 577
Bacterium tularense, Cultivation of, in simplified liquid media. Abstract, 56
Bacteroides funduliformis, Form variation in cultures of. Abstract, 21
— infection. Abstract, 54
Bailey, John Hays, and Cavallito, C. J. Abstract, 30
Baisden, Louis, and Yegian, Diran, 163
Baldwin, I. L., and Hanson, A. M. Abstract, 13
— and Massock, Helen. Abstract, 34
Bantz, A. C., Underkofler, L. A., and Peterson, W. H., 183
Barrett, C. D., Frisch, A. W., Tripp, J. T., and Pidgeon, M. S. Abstract, 54
Bartram, M. T. Abstract, 48. Abstract. (No abstract), 306
Bass, K. C., Lawson, G. M., Patterson, J. A., and Jones, A. L. Abstract, 97
B-complex fortification of distillers' solubles by microbial growth. Abstract, 34
Bechdel, S. I., Stone, R. W., and Murdock, F. R. Abstract, 40
Beck, Oleta, and Coffee, W. B. Abstract, 200
Benzoic acid and its salts, The preservative properties of. Abstract, 37
Berkman, Sam, Koser, Stewart A., and Dorfman, Albert. Abstract, 23
Biochemical and antigenic relationships of the paracolon bacteria, 101
Biological stains, War time standardization of. Abstract, 20
Birkeland, J. M., and Green, T. W. Abstract, 42
Bismuth sulfite plating medium. Abstract, 521
Blood, whole, The subgrouping and subtyping of. Abstract, 98
Blubaugh, L. V., Reed, G. S., and Gerwe, E. G. Abstract, 43
— and Reed, Wanda. Abstract, 44
Blundell, G. P., Erf, L. A., Jones, H. W., and Hoban, R. T. Abstract, 304
Bohls, S. W., Irons, J. V., and Albert, Dorothy. Abstract, 79, 200.
Boisvert, Paul L., and Fousek, Mildred D. Abstract, 197
Bondi, A., Jr., Felton, Harriet M., and Flosdorf, E. W. Abstract, 72, 194
Borman, Earle K., Wheeler, Kenneth M., West, D. Evelyn, and Mickle, Friend Lee. Abstract, 198
Bottcher, Elizabeth J., and Hofer, A. W., 407
Bozeman, S. R., Orcutt, F. S., and Coffee, W. B. Abstract, 18
Braun, Armin C., and Laskaris, Thomas. Abstract, 196
Braun, Werner. Abstract, 21
Breed, Robert S., 455

Brilliant-green bile lactose broth, Confirmations of the coliform group from raw and chlorinated waters with. Abstract, 44
Brinson, J. E., and Brown, R. W. Abstract, 38
Bronfenbrenner, J., and Hershey, A. D. Abstract, 76, 211
Bronson, L. H., and Parker, R. F., 177
Brown, Rachael. Abstract, 522
Brown, R. W., and Brinson, J. E. Abstract, 38
Brown, R. W., Wood, H. G., and Werkman, C. H. Abstract, 15
Brucella abortus, Studies on the allergic and antigenic activity of sonic filtrates of. Abstract, 193
Brunstetter, B. C., Curran, H. R., and Myers, A. T., 485
Burke, Victor, Swartz, Herman, and Klise, Katherine S., 415
Burris, R. H., and Wilson, P. W. Abstract, 17
Butyl alcohol fermentation, The reaction of $CH_3C^{14}OOH$ in the. Abstract, 15

Calcium tartrate, Bacterial decomposition of crude, during the process of recovery from grape residues. Abstract, 35
Campbell, Thressa, and Hofer, A. W., 406
Cane sugar, The influence of relative humidity, temperature and microbial flora on deterioration of raw. Abstract, 36
Capsules, Staining bacterial, 301
Carbon dioxide, Oxygen production in green algae in the absence of. Abstract, 13
— monoxide inhibition of *Azotobacter* in microrespiration experiments, 219
Carpenter, Charles M., Stokinger, Herbert E., and Ackerman, Helen. Abstract, 31
Carpenter, Philip L., and Herndon, Eleanore. Abstract, 46
Carrier state, Spread of poliomyelitis by contact—Recent observations on. Abstract, 90
Cattle-testing, The necessity for the standardization of tuberculins for. Abstract, 69
Cavallito, C. J., and Bailey, John Hays. Abstract, 30
Cetylpyridinium chloride, The effect of temperature on the germicidal activity of. Abstract, 43
Chaffee, Eleanor, Hobby, Gladys L., Meyer, Karl, and Dawson, Martin H. Abstract, 65
Challinor, Kathryn, Scherago, M., and Weaver, R. H. Abstract, 577
Chambers, Leslie A., Henle, Werner, and Dudley, Elizabeth. Abstract, 82
Chapman, George H., 405
Chemical analysis of its products, Conditions governing the oxidation of naphthalene and the. Abstract, 16
Chemoprophylaxis and therapy in experimental virus infections. Abstract, 87
Chemosynthetic bacteria, A comparison of the processes of phosphorylation in photosynthetic and. Abstract, 14
Chemotherapeutic activity of the sulphonamides in lymphogranuloma venereum and in duck malaria, The effect of para-aminobenzoic acid on the, 205
— studies with *Hemophilus influenzae* in mice and chick embryos. Abstract, 195
Chick embryo, Bacteriophagy in the, 477
—, Cultivation of *Hemophilus influenzae* in yolk-sac of developing. Abstract, 195
—, Cultivation of the virus of mouse encephalomyelitis (Theiler's virus) in the. Abstract, 80
—, The use of the, in testing disinfectants. Abstract, 42
Chicken plasma, A study of the complement-fixation test as applied to. Abstract, 413
Chromogenic property of staphylococci, Determination of the, 405
Citrinin, Production of. Abstract, 30
Civilian protection, Laboratory activities in the organization for. Abstract. (No abstract), 522
Clostridia, Thioglycollate media for the cultivation of pathogenic. Abstract, 58
Clostridium botulinum type C, Some ecological relations of *Pseudomonas aeruginosa* to, 551
Coccidioidomycosis, A reservoir of, in wild rodents. Abstract, 306
Coffee, W. B., and Beck, Oleta. Abstract, 200
— Orcutt, F. S., and Bozeman, S. R. Abstract, 19
Coleman, Madeline F., Reid, J. J., and Farrell, M. A. Abstract, 38

Coleman, Marion B., and Wheeler, Mary W. Abstract, 521
Coliform bacteria, Application of the decimal reduction time principle to a study of the resistance of, to pasteurization, 265
— bacteria, Biochemical characteristics of pigmented, 499
— bacteria, Hyodesoxycholic acid media for the estimation and enumeration of, in milk and water. Abstract, 45
— group, Confirmations of the, from raw and chlorinated waters with brilliant-green bile lactose broth. Abstract, 44
Collodion sacs, Experiments with, on inhibition of bacterial growth *in vitro*, 147
Complement-fixation test, A study of the, as applied to chicken plasma. Abstract, 413
Conn, H. J. Abstract, 20
—, Chairman; Victor Burke, Barnett Cohen, M. W. Jennison, J. A. Kennedy, A. J. Riker and C. H. Werkman, Members, 12
Connecticut Valley Branch, S.A.B. Proceedings, 196
Cooke, Willard R., Lankford, C. E., and Scott, Virginia. Abstract, 201
—, Lankford, Charles E., Scott, Virginia and Cox, Mary F., 321
Cooper, Merlin L., and Keller, Helen M. Abstract, 26
Copper sulfate, Fungi tolerant to extreme acidity and high concentrations of. Abstract, 196
—, Fungi tolerant to extreme acidity and high concentrations of, 509
Corrigan, Francis V., Stuart, C. A. and Rustigian, Robert. Abstract, 52
Cox, Mary F., Lankford, Charles E., Scott, Virginia and Cooke, Willard R., 321
Crown-gall bacteria, Tumor formation by attenuated, in the presence of growth-promoting substances. Abstract, 196
Culbertson, C. G., Forry, F., and Meiks, L. T. Abstract. (No abstract), 414
Culture medium, A complete, prepared from human red cells, 575
Curran, H. R., Brunstetter, B. C., and Myers, A. T., 485
Curran, H. R., and Evans, F. R. Abstract, 47. Abstract. (No abstract), 306
Cutting oil emulsions, Normal bacterial flora of. Abstract, 37
Danysz phenomenon, The, with bacteriophage. Abstract, 76
Darkfield studies on the motility and agglutination of typhoid bacilli, The showing of the motion picture film prepared by Dr. Adrianus Pijper, Pretoria, South Africa, on. Abstract. (No abstract), 305
Davis, D. J. Abstract. (No abstract), 200
Dawson, Martin H., Hobby, Gladys L., Meyer, Karl, and Chaffee, Eleanor. Abstract, 65
Dawson, Virginia T., Goresline, Harry E., Stuart, L. S., and Smart, Helen F. Abstract, 48
Day, A. A., and Walker, A. W. Abstract, 20
Decimal reduction time, Bacterial death rates and. Abstract, 19
— reduction time principle, Application of the, to a study of the resistance of coliform bacteria to pasteurization, 265
Delbrück, M. Abstract, 74
—, Luria, S. E., and Anderson, T. F. Abstract. (No abstract), 203
Deromedi, F., and Ordal, E. J., 293
Dewey, Bartlett T., and Poe, Charles F., 495
Diachun, Stephen, Johnson, E. M., and Valleau, W. D. Abstract, 577
— Valleau, W. D., and Johnson, E. M. Abstract, 95
Dienes, L. Abstract, 21
Dilution method, Bacterial enumeration by the. Abstract, 20
Disinfectants, The deterioration of, in agricultural use. Abstract, 42
—, The evaluation of. Abstract, 41
—, The use of the chick embryo in testing. Abstract, 42
—, The use of thioglycollate media for testing. Abstract, 44
Distillers' solubles, B-complex fortification of, by microbial growth. Abstract, 34
Dorfman, Albert, Koser, Stewart A., and Berkman, Sam. Abstract, 23
Downs, Cornelia M., 137
Duck malaria, The effect of para-aminobenzoic acid on the chemotherapeutic activity of the sulphonamides in lymphogranuloma venereum and in, 205
Dudley, Elizabeth, Chambers, Leslie A., and Henle, Werner. Abstract, 82

Duffett, Nicholas D., Gold, Sidney H., and Weirich, Clarence L. Abstract, 37
Dunham, Wolcott B., and Parker, Sue. Abstract, 80
Dusenbery, Edwina D., Seeler, Albert O., and Graessle, Otto, 205
Dyes, The effect of concentration of, on differentiation of enteric bacteria on eosin methylene blue agar, 471

Eads, R. B., McGregor, T., and Thurman, D. C. Abstract, 200
Eastern Missouri Branch, S.A.B. Proceedings, 305
Eastern New York Branch, S.A.B. Proceedings, 521
Eastern Pennsylvania Chapter, S.A.B. Proceedings, 193, 303
Eating and drinking establishments, A more practical method of studying the sanitary conditions of. Abstract, 46
E. coli, Agglutination of erythrocytes, leucocytes, thrombocytes, spermatozoa, spores of molds, and pollen by strains of, The agglutinating properties of *Escherichia coli*, 545
— in milk, Notes on the use of sodium-lauryl-sulfate tryptose broth for the detection of. Abstract, 413
Egg powder, Effect of storage temperature on bacterial counts in spray-dried whole. Abstract, 48
Eggs, Bacteriological changes during the dehydration of. Abstract, 48
—, dehydrated, Microbiology of. Abstract. (No abstract), 306
—, frozen whole, A study of the increase of bacterial counts of, using three methods of thawing. Abstract, 49
—, The bacteria of fresh and frozen, in relation to public health. Abstract, 50
Electron micrography, Study of flagella of a fresh water bacterium by motion microphotography and. Abstract, 305
— microscope, Somatic and flagellar typhoid antibodies and pneumococcal capsular antibodies as shown by the. Abstract. (No abstract), 305
— microscope studies of bacteriophage. Abstract, 73. Abstract. (No abstract), 203
— microscope studies of luminous bacterial cells and cytolysates. Abstract. (No abstract), 203
Electron microscope, The internal structure of certain bacteria as revealed by the—a contribution to the study of the bacterial nucleus, 349
— microscope, The morphology of *Leptospira icterohemorrhagiae* and *L. canicola* as revealed by the, 143
— microscopic study, An, of the pneumococcal capsular swelling phenomenon. Abstract, 55
— microscopic study of bacteriophage. Abstract, 303
Elliker, P. R. Abstract. (No abstract), 413
Emerson, R. L., and Umbreit, W. W. Abstract, 14
Emmons, C. W. Abstract, 306
Encephalomyelitis, mouse (Theiler's virus), Cultivation of the virus of, in the chick embryo. Abstract, 80
— serum, Duration of passive protection by hyperimmune western equine. Abstract, 79
— virus neutralizing antibodies, comparison of mouse and egg tests with titrations of equine. Abstract, 79
Endamoeba histolytica, Problems encountered in cultivating, with a single species of bacteria for the production of antigens. Abstract, (No abstract), 307
Enteric bacteria, The effect of concentration of dyes on differentiation of, on eosin methylene blue agar, 471
— diseases, Specific prophylaxis against. Abstract, 61
Enumeration, Bacterial, by the dilution method. Abstract, 20
Enzymatic treatment, Effect of, of distillers' solubles on the microbiological assay of riboflavin. Abstract, 95
Enzyme-sulfanilamide and enzyme-urethane equilibria, The nature of the changes in optimal temperature of luminescence caused by. Abstract, 24
Eosin methylene blue agar, The effect of concentration of dyes on differentiation of enteric bacteria on, 471
Epidemiology, Observations on recovery of virus from flies and on winter poliomyelitis in relation to. Abstract, 88
Equine encephalomyelitis vaccination, Virus-neutralizing antibody content of human sera following. Abstract, 200

Erf, L. A., Blundell, G. P., Jones, H. W. and Hoban, R. T. Abstract, 304
Erythrocytes, leucocytes, thrombocytes, spermatozoa, spores of molds, and pollen, Agglutination of, by strains of *E. coli*. The agglutinating properties of *Escherichia coli*, 545
Escherichia coli, Antigenic relationships of, isolated from one individual, 121
—, The agglutinating properties of: Agglutination of erythrocytes, leucocytes, thrombocytes, spermatozoa, spores of molds, and pollen by strains of *E. coli*, 545
—, The differentiation of human and chicken strains of, on the basis of phenol tolerance. Abstract, 99
—, The incidence and significance of microorganisms antagonistic to, in water. Abstract, 29
Ethylene oxide, Preliminary studies on soil sterilization with. Abstract, 40
Evans, Alice C. Abstract, 75
Evans, F. R., and Curran, H. R. Abstract, 47. Abstract. (No abstract), 306
Eyring, Henry, and Johnson, Frank H. Abstract, 24

Falk, Carolyn R., and Appelbaum, Emanuel. Abstract, 68
Fan, C. S., and Umbreit, W. W. Abstract, 13
Farnsworth, Nancy C., and MacNeal, Ward J. Abstract, 41
Farrell, Leone. Abstract, 53
Farrell, M. A., Coleman, Madeline F., and Reid, J. J. Abstract, 38
— Schuman, R. L., and Stone, R. W. Abstract, 14
Fatigue, chilling and trauma, Effect of, on resistance to experimental poliomyelitis. Abstract, 78
Fellers, C. R., O'Connor, M. G., Levine, A. S., and Griffiths, F. P. Abstract, 37
Felsenfeld, Oscar. Abstract, 25
—, and Heilbrunn, G., 273
Felton, Harriet M., Flosdorf, Earl W., and Bondi, A. Abstract, 72
—, Flosdorf, E. W., Bondi, A., Jr., and McGuinness, A. C. Abstract, 193
Fermentation, The, of alfalfa silage preserved by wilting and control of moisture. Abstract, 40
Fisher, C. Virginia, and Martin, Gustav J. Abstract, 33
Fitzpatrick, Florence. Abstract. (No abstract), 195
Flagella, Study of, of a fresh water bacterium by motion microphotography and electron micrography. Abstract, 305
Flosdorf, E. W., Bondi, A., Jr., Felton Harriet M., and McGuinness, A. C. Abstract, 193
—, Felton, Harriet M., and Bondi, A. Abstract, 72
Fluorometric method, The use of a modified, for the determination of riboflavin in fermentation materials and products. Abstract, 32
Food poisoning, Prevention of bacterial, by food preservation methods. Abstract, 60
— preservation methods, Prevention of bacterial food poisoning by. Abstract, 60
— problems in war time. Abstract, 47
Form variation in cultures of *Bacteroides funduliformis*. Abstract, 21
Formol-toxoid of *Shigella dysenteriae* (Shiga). Abstract, 53
Forry, F., Culbertson, C. G., and Meiks, L. T. ,Abstract. (No abstract), 414
Foster, Jackson W. Abstract, 32, 65
—, and Woodruff, H. Boyd. Abstract, 30
—, and Woodruff, H. Boyd, 408
Fousek, Mildred D., and Johnson, Roswell D. Abstract, 197
Foxhall, E. P. Abstract, 96
Francis, Thomas, Jr. Abstract, 62
Francis, T., Jr. (in association with H. E. Pearson). Abstract, 88
Frisch, A. W., Tripp, J. T., Barrett, C. D., and Pidgeon, M. S. Abstract, 54
Fuller, W. H. and Norman, A. G., 565
Fulton, MacDonald. Abstract, 202
Fungi tolerant to extreme acidity and high concentrations of copper sulfate. Abstract, 196
— tolerant to extreme acidity and high concentrations of copper sulfate, 509
